Down, down, down Always make the same mistakes,  
again  
Down, down, always down Always make the same  
mistake  
Talk is cheap, but you're talking fast  
Never take the time to think of where it will end  
Walking tall, don't look back  
I don't know which way it's gonna lead, me baby  
I try so hard but I can't understand  
Lead, me baby  
Just help me get my feet on the ground  
Down, down, down Wanderin' through the places that  
we both used to go  
Round, round always round Chase me and sedate me  
now but don't let me go  
Restless sleep, locked in my lonely room  
Empty arms are waiting for the morning to come  
In the deep, where my dreams come true  
Take care now, keep you now, but  
Lead me baby  
I try so hard but I can't understand

Lead, me baby  
Oh, but help me get my feet on the ground, yes, help  
me  
Oh, help me baby, oh help me  
I can't stay down for too long now baby  
I can't stay down for too long now baby  
No, yeah, whoa yes  
If I cry [I'm crying?] well, it's, it's 'cos I'm lonely  
You know I'm only ever lonely without you  
If I cry well, it's 'cos I'm lonely  
'Cos I can be so lonely, I can be, I can be, I can be ...  
Push, push, push, ooh
