"Lie Without A Lover"

Visit "[Lie Without A Lover](#)" on MotoLyrics.com

Hey these nights are fashioned around you
I guess a bit of path of love
is no longer haunting you.

Come and spring a new(flame)
in my heart and take me over
I'll be sitting around,
waiting for you to perform
Sing a song to me because I'm bored
You bore me
You bore me
You bore me,you do
You make me wanna run away from you.

These days
Hold me as I dwell in love,
in a lie without a lover
And these nights are cold
I'm in your spell of lust
As I lie without a lover.

Now the nights are days
And days I feel that you are
just a hard way
You find that you are
You wanna love me
Yes I love you for a thousand days.

Ohhhahhh,love sweet love
I know there is a way
to help us blow below the flame.

Yeah,put your hand...
It caresses ahhhh...
You remind me of a sence of censory,
to a place with your peers...ahhh
Will you run with me?

Now these days
Hold me as I dwell in love,
in a lie without a lover
And these nights are cold

I'm in your spell of lust
As I lie without a lover...without a lover.

Now the nights are days
And days I feel that you are
just a hard way
You find that you are
You wanna love me
Yes I love you for a thousand days.

Ohhhahhh,love sweet love
I know there is a way
to help us blow below the flame.

(And I lie without a lover)

I think that everytime you swinging it
You're swinging it...for me.

See I want to surround you
Put yourself in your fanny reputation
that surrounds you while you're out.

Now the nights are days
And days I feel that you are
just a hard way
You find that you are
You wanna love me
Yes I love you for a thousand days.

Ohhhahhh,love sweet love
I know there is a way
to help us blow below the flame.

Now the nights are days
And days I feel that you are
just a hard way
You find that you are
You wanna love me
Yes I love you for a thousand days.

Ohhhahhh,love sweet love
I know there is a way
to help us blow
and become one flame...one flame.

(a lie)...(without a love)...(lover)

Try to find,
try to find,
try to find.
