In your eyes I see the hurt he left behind
And you're afraid to love and lose a second time
Oh but you and I we got such a beautiful thing
Why'd you want to let it go when it's just beginning to
grow

Chorus:

You got to believe in love
You got to believe in love
Open up your heart & baby let the love come in
You got to believe in love
You got to believe in love
Open up your heart & baby let it all begin

Baby you, You're the first real love I found
If you put your trust in me I'll never ever let you down
Oh, not long ago oh I was once left behind
Ya see that's how I know
We gotta long long way to go

Chorus

Baby just believe
Baby just believe
Baby just believe
Baby just believe

Chorus
