[Robin Thicke]

So she's the kinda girl you wanna marry  
The kinda girl you walked the whole earth for  
Put her on your back and just carry  
Her attitude is hotter than the Earth's Core

When she's around nothin else matters  
Untouchable She's got her own force-field  
Sooner or later someone will get at her  
If i don't some one else Will

Wanna Love You Girl (X 4)

Oh (X 16)

So she's the kinda girl you wanna marry  
Scientists say she's the second Sunshine  
And now my life's sweeter than berries  
i guess if we have sex Our love to wine

When she's around nothin else matters  
Even if the sky was at a stand still  
Sooner or later someone will get at her  
If i don't some one else Will

Wanna Love You Girl (X 4)

Oh (X 16)

[Chorus-Robin Thicke]

Wanna Love You Girl (X 4)

I'm so glad i found u (X 4)

Ooh (X 4)
