I want to use my hands on your body,  
I want to explore your rivers and your valleys.  
From the top of your mountains to the depths of your  
sea,  
I want to fuel the fire inside of me.

chorus

I'm your loverman, digging as deep as I can  
I'm your loverman and I travel. I travel.  
I'm your loverman, going as far as I can  
I'm your loverman and I travel. I travel  
I want to look in your eyes, pass the mask you hide  
behind  
I want to know all of you, what makes you smile what  
makes you blue.  
You know I want to please you, take you so high. Forget  
that you can't  
fly were just spaceships in the night.

Your ripping your clothes off of the past  
making a new path and a brand new day  
baby come with me I'll take you away

I'm your loverman, digging as deep as I can  
I'm your loverman and I travel. I travel  
I'm your loverman, going as far as I can  
I'm your loverman and I travel. I travel

je t'aime mi amour, je t'aime mi amour  
je t'aime mi amour, je t'aime mi amour  
From the garden in the Versailles, to the desert in  
Dubai  
From the top of the great wall we can touch the sky.

chorus 3X

I'm your loverman, digging as deep as I can  
I'm your loverman and I travel. I travel  
I'm your loverman, going as far as I can  
I'm your loverman and I travel. I travel
