Just close your eyes
We can go anywhere you want
Anywhere in my mind, babe.
I know you been needing to cry.
And who knows who fall, and who will call.
Sometimes I wish more than ever would solve.

Let's just stay
And know it's alright. alright.
And let's just leave the world and the madness outside.
Baby just spend
The night
With me.

Turn down the sky
We can be on a mountain top
And we can stay in our room all night.
If you just plead
Our love will survive
Life changes people and things
It makes me wanna hold you so tight

So let's just pray
And know it's alright. alright.
And let's just leave the world and the madness outside.
Baby just spend
The night
With me.

The world may be ending.
Anything can happen.
Tomorrow may never come.
I could lose you.
You could love somebody else.
Tomorrow everything can be undone.

Ooh. Just spend the night.
And girl, we'll be alright.
Baby let's talk, before we fight.
Put your trust in me, your love in my hands
Baby everything's working out right.

Just spend. Ooh ooh. The night
With me.
