I've got some news for you
Fembots have feelings too
You split my heart in two
Now what you gonna do?

(Once you gone tech you ain't never going back)
(I'm hi-tech baby)

Fresh out the box, the latest model
Generator running on full throttle
Can I get a fuel up? Hit the bottle
(Reboot)
I got a lotta automatic booty applications
Got a C.P.U maxed out sensation
Looking for a droid to man my station
(Reboot)
Ro-ro-rock the nation
(Rock it baby)

I've got some news for you
Fembots have feelings too
You split my heart in two
Now what you gonna do?
(Jag Ælskar dig)

My system's in mint condition
The power's up on my transistors
Working fine, no glitches
Plug me in and flip some switches
Pull up in docking position
Pop the hatch and hit ignition
Bb-burn out, baby
Ready for demolition

(Once you gone tech you ain't never going back)

My superbrain is all binary
Circuitry and mainframe, tin-foil hair
I'm sipping propane topped with a cherry
(Reboot)
In fact I'm a very scientifically advanced hot mama
Artificially discreet no drama

Digitally chic titanium mama
(Reboot)
Ring the alarma

I've got some news for you (Uh uh)
Fembots have feelings too (You know)
You split my heart in two
Now what you gonna do?
(Here we go)

My system's in mint condition
The power's up on my transistors
Working fine, no glitches
Plug me in and flip some switches
Pull up in docking position
Pop the hatch and hit ignition
Bb-burn out, baby
Ready for demolition

(Once you gone tech you ain't never going back)

Once you gone tech you're never ever going back
You gotta enter access code upon the back of my neck
Initiating slut mode
All space cadets and deck
There's a calculator in my pocket
Got you all in check

My system's in mint condition
The power's up on my transistors
Working fine, no glitches
Plug me in and flip some switches (Baby)
Pull up in docking position
Pop the hatch and hit ignition (Oh yeah)
Bb-burn out, baby
Ready for demolition (I'm ready)

My system's in mint condition
The power's up on my transistors
Working fine, no glitches
Plug me in and flip some switches (Yeah, yeah)
Pull up in docking position
Pop the hatch and hit ignition
Bb-burn out, baby
Ready for demolition (Uuh)
