

## Robyn "Fembots"

Visit "[Fembots](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I've got some news for you  
Fembots have feelings too  
You split my heart in two  
Now what you gonna do?

Once you gone tech  
You ain't never going back  
I'm hi-tech, baby

Fresh out the box the latest model  
Generator running on full throttle  
Can I get a fuel up? Hit the bottle  
(Reboot)

I got a lotta automatic booty applications  
Got a CPU maxed out sensation  
Looking for a joy to man my station  
(Reboot)  
Rock the nation  
(Rock it, baby)

I've got some news for you  
Fembots have feelings too  
You split my heart in two  
Now what you gonna do?  
(And scan me)

My system's in mint condition  
The power's up on my transistors  
Working fine, no glitches  
Plug me in and flip some switches

Pull up in dragging position  
Pop the hatch and hit ignition  
Burn out, baby  
Ready for demolition

Once you gone tech  
You ain't never going back

My super brain's are binary  
Circuitry and mainframe tens-filled here

I'm sipping propane topped with a cherry  
(Reboot)  
In fact I'm a very scientifically advanced hot mama  
Artificially discreet, no drama  
Digitally chic titanium mama  
(Reboot)

Ring the alarm-a

I've got some news for you  
Fembots have feelings too  
(You know)  
You split my heart in two  
Now what you gonna do?  
(Here we go)

My system's in mint condition  
The power's up on my transistors  
Working fine, no glitches  
Plug me in and flip some switches

Pull up in dragging position  
Pop the hatch and hit ignition  
Burn out, baby  
Ready for demolition

Once you gone tech  
You ain't never going back  
Once you gone tech  
You ain't never going back

Once you gone tech  
You ain't never going back  
Once you gone tech  
You ain't never going back

Once you gone tech you never ever going back  
I got an inter access code upon the back of mo neck  
Initiating slut mode of space cadets and dexters  
A calculator in my pocket, got you all in check

My system's in mint condition  
The power's up on my transistors  
Working fine, no glitches  
Plug me in and flip some switches

Pull up in dragging position  
Pop the hatch and hit ignition  
Burn out, baby  
Ready for demolition

My system's in mint condition  
The power's up on my transistors  
Working fine, no glitches  
Plug me in and flip some switches

Pull up in dragging position  
Pop the hatch and hit ignition  
Burn out, baby  
Ready for demolition
