You and me together
Stars forever
You and me together
Stars forever
You and me together
Stars forever
You and me together
Stars forever

You and me on hood on my car
Saturday night
Watching the stars
You and me on hood on my car
Saturday night
Watching the stars

You and I
Shining lights to what we are
Look at the sky
And I am never far

I can be right there next to you
No matter where in the world you are
I got you right here next to me
Forever connected through the stars

It's what we are
You and me together
Stars forever
You and me together
Stars forever
It's what we are
You and me together
Stars forever
You and me together
Stars forever

The last train's gone
We walk through the night
The moon shines down
Like a spotlight
The last train's gone

We walk through the night
The moon shines down
Like a spotlight

You and I
Shinning lights to what we are
Look at the sky
And I am never far

I can be right there next to you
No matter where in the world you are
I got you right here next to me
Forever connected through the stars

It's what we are
You and me together
Stars forever
You and me together
Stars forever
It's what we are
You and me together
Stars forever
You and me together
Stars forever
It's what we are
You and me together
Stars forever
Stars forever
You and me together
Stars forever
It's what we are
You and me together
Stars forever
You and me together
Stars forever
It's what we are

Hey
We're superstars

I can be right there next to you
I can be right there next to you
Forever connected through the stars

It's what we are
You and me together
Stars forever
You and me together
Stars forever
It's what we are
You and me together

Stars forever
You and me together
Stars forever
Superstars
You and me together
Stars forever
Stars forever
You and me together
Stars forever
You and me together
Stars forever
It's what we are
You and me together
Stars forever
Stars forever
