Honey, it's all around you
The things that you're drawn to
Is what you've become

Money, is that what you wanted
Your paper is haunted
Inside your hands

Red lights
Now that they found you
Now they surround you
You're losing control [x2]
Losing control [x3]

Honey, the hero is scheming
Tell us you're dreaming
Well, everything's fine (everything's fine)
Red lights
Now that they found you
Always surround you
You're losing control [x2]
Losing control [x3]

Now that they found you
Now you've been found
...

Yea, you're losing control
Losing control
... losing control
You're losing control

Honey, you know I love you
There's no one above you
And no one below
