Lost in a daydream  
That will not come true  
Since you've gone I seem to  
Get lost in a daydream of you

And if I saw you today  
Down on the street I would say  
A few words, you would see  
That you are truly meant for me

Lost in a daydream  
That will not come true  
Since you've gone I seem to  
Get lost in a daydream of you

If I could live my life in reverse  
Maybe, then I could break that curse  
And start again  
And instead of losing we might win

Lost in a daydream  
That will not come true  
Since you've gone I seem to  
Get lost in a daydream of you

I make big plans like a big man  
What it comes down to is, you see right through me  
And all of my silly daydreams  
You and I know they will never come true

But since you've gone I seem to  
Get lost in a daydream of you  
I get lost in a daydream of you
