"Fight For Love"

What's the good to hate, to fight?
In the name of truth and right
In the name of God above
I'm just here to fight for love

Why must it be us or them?
Someone loses, someone wins
Why do we not hear the call?
All for one and one for all

When the push becomes a shove
I'm just here to fight for love
Come on people fight for love

How much further must we fall?
The depths of the soul
Are not meant to hold such anger

Many stumble through this life
Like they don't know wrong from right
Like they don't know bad from good
Blind to peace and brotherhood

When the push becomes a shove
I'm just here to fight for love
And in the name of God above
Come on people fight for love
Come on people fight for love
