Rain falls down on the desert sand  
And the flowers cover the land  
Well they've been waiting patiently  
For the right raindrop to set 'em free

Well, ain't it just like love?  
I thought there was none  
That was when I found one  
On a dark night in a southern town  
You called to me and I turned around

In a perfect moment when the stars align  
You couldn't have come at a better time  
And every day of my life had led me to  
That perfect moment with you

Lucky that we did not meet  
Ten years back on the street  
So many pages yet to turn, yeah  
So many dreams still to burn

Oh, but I don't cry for the wasted years  
Or the twisted roads that got me here  
I have been to the end of the earth  
And I know what standing still is worth

In a perfect moment when the stars align  
Love don't travel in straight lines  
And every day of my life had led me to  
That perfect moment with you

Well, the wheel of fortune is going round and round  
I never thought I'd come up when I was down

What a perfect moment when the stars align  
When you put your hand in mine  
And every day of my life has led me to  
That perfect moment  
Every day of my life has led me to  
This perfect moment with you
