"Sea Of Roses"

In the fading light of the autumn sun
By the water I saw you again
And you whispered your dreams
To the rose on the sea
And the sky was on fire again

And you stayed with me 'neath the fire in the sky
And we watched the dawn together
And I'll stay with you if it takes a sea of roses
I will stay, I will stay with you

I could feel the breath of heaven
The wind and the moon 'cross the sky
And she kissed the rain to the one she loved
And I whispered my dreams to the rose on the sea
And you stayed by my side 'til the morning sun

And you stayed with me 'neath the fire in the sky
And we watched the dawn together
And I'll stay with you if it takes a sea of roses
I will stay, I will stay with you

And I'll stay with you if it takes a sea of roses
I will stay, I will stay with you

And you stayed with me 'neath the fire in the sky
And we watched the dawn together
And I'll stay with you if it takes a sea of roses
I will stay, I will stay with you
