O god gilbert  
When you said that  
I'm afraid i'll have to jump across the gorge  
Like in this book i'm reading  
When you read it back  
You need a painkiller  
But i m sober  
Stuck on some thought i can t express  
I saw a part of you that was threatening to me  
And i felt that i was messing in it  
That fundamental problem with being friends  
Some people around here  
Can watch punky brewster  
And that s about it  
I probably would have been a little bored  
Waiting for that one comment  
That ruins everything  
But it is all subconsciously being said  
If you are a sexist pig  
Then i have got to dislike you  
For the rest of my life  
I will have to listen  
To certain devastating things  
For the rest of my life
