So is this what you call hope?  
I wouldn't care less if you choked  
My heart's on fire waiting for you

So is this what you call life?  
Sharper than the sharpest knife  
My lungs are bleeding breathing in you

So cut your ties  
And spread your lies  
So everyone can see you're nothing but a joke

And don't forget to take it in  
So wrap me around your finger  
So you always remember I'm the best you ever had

I've got a bullet and a gun  
If you wanna have some fun  
I swear, I promise  
Shoot to kill

I've got a razor and a writst  
But I'm not cutting this  
My lungs can only take so much

So cut your ties  
And spread your lies  
So everyone can see you're nothing but a joke

And don't forget to take it in  
So wrap me around your finger  
So you always remember I'm the best you ever had

Am I the only one?  
Tell me who is having fun  
Cause I've had better days in hell  
And I hope that you can tell  
I'm losing grip on what I had
