Someone stop me  
I'm falling quickly  
Into this trap you set for me  
Where I can't breathe and I can't see your face

Am I the culprit  
Are you the victim  
Is this is a game of cat and mouse?  
I'll catch and kill you so I can survive

Don't say sorry  
Cause I can't bare to hear you beg  
You've done this to yourself  
And I won't stop until your dead

You're never coming home and I am never writing you  
Each time you broke a promise even though you said  
"stay true"  
I swore I'd never hurt you but never said I wouldn't lie  
It's breaking my heart more and more to sit and watch  
you die

Do you remember?  
A warm September  
You ran of to me through the night  
And ran away at the first sight of light

And I'm so tired  
Of feeling lonely  
So I'll make a new friend every day  
To replace all memories I have of you

I can't see straight anymore

How's it feel to be the one who's crying now?
