I'm looking for another way
I'm looking for another way to leave my lover
I'm looking for another place
I'm looking for better place to beat my lover

I'm looking for better day
I'm looking for better way to beat my lover
I'm looking for another way
Still looking for another day to beat my lover

I'm taking all she has
She's a teen, she's a nicoteen
I'm doing one more lap

Beat my lover
I'm looking for a better way
I'm looking for a better day to beat my lover
