Last time I saw you
I could've accepted the truth
Now we've seen eachother again
But the distance between us still remains
(Regretting for seeing you)
(Regretting for ever knowing you)

Can't believe you're actually in my way
I thought you'll say the words to start again
But now you're here to hear the last of me

Don't you think it's wrong now?
Or was it too late, have you forgotten?
Don't you think this love shouldn't exist?
Forget about all the time

Last time we said bye
Couldn't take my expressions
Now we've seen eachother again
Feelings depressed that I can't explain
(I wanted to see you then but not anymore)
(I want you to go out of my sight I don't know why)

Can't believe you're actually in my way
I thought you'll say the words to start again
But now you're here to hear the last of me

Don't you think it's wrong now?
Or was it too late, have you forgotten?
Don't you think this love shouldn't exist?
Forget about all the time
Forget!
Forget!
Forget!

Don't you think it's wrong now?
Or was it too late, have you forgotten?
Don't you think this love shouldn't exist?
Forget about all the time
