

Rock House!

"Cold As Us"

Visit "[Cold As Us](#)" on MotoLyrics.com

Can't you see
We've become so cold
Making it under more, everytime
And we can't be
Any colder now
Loosing the sences, seperated by fences

If you have the time to get us fixed
Any better just to make up time
Frosting in December, but never worse
Cold as us, cold as them
Cold as the wind

Don't you know
Love's become so old
Making it undercover, always
And our pride is low
We can't be colder
Loosing our words, empty conversations

If you have the time to get us fixed
Any better just to make up time
Frosting in December, but never worse
Cold as us, cold as them
Cold as the wind
