Don't look down
With that frown
You know it's fake
The faces that you always make
Why do you lie?
Why do you cry?
Why did you say bye?

Everything seems so wrong
I need to worry all lifelong
When I know they're all just fake

Wake up, get up
Tell me what's true,
And what's wrong
Why we can't come along
I saw what's really wrong with me
From lies, but I can't get any free
When did I say you were wrong?
You made me look down on the floor
I just wanted to go along

Got no chance
No romance
My sight blurs
Inside I want to see what you really were

Wake up, get up
Tell me what's true,
And what's wrong
Why we can't come along
I saw what's really wrong with me
From lies, but I can't get any free
When did I say you were wrong?
You made me look down on the floor
I just wanted to go along

I want to know I want to see
All the days that we've really spent
All the days we sat together in nowhere
All the days I had to bleed to get what you needed
All the troubles you've made

And all these wasted times you've made
That made us fall apart

I just want to say
All the days that we have made
Led up to nothing but a little light to fade
I saw what's really wrong with me
From lies, but I can't get any free
When did I say you were wrong?
You made me look down on the floor
I just wanted to go along

Everything seems so wrong
I need to worry all lifelong
When I know they're all just fake
I saw what's really wrong with me
From lies, but I can't get any free
When did I say you were wrong?
You made me look down on the floor
I just wanted to go along
(But now it's far too late)

I just wanted to go along
(You don't know what I mean)
I regret being with you
(Making me look down on the floor)
