If you had the chance to erase the past
Will it be when we met here under this big tree?
From the hurt and the pisses that I've given you (given
you)
I never meant to be, anything I could be
I tried, but it never seems to change up
And now I'm giving up, giving up, giving up slowly

Everyday was so hazy, spending time, my name's lazy
When you're not around, my life loses sound
I'm so sick with my chosen fate now
I want someone now

I can't pass on by myself
I caught this life just as a party
Let myself dirty
All around, I've let you down

[Solo]

I never meant to be, anything I could be
I wanted escape from my fate that are dull
You left me for a day, now the wind is pushing me away

If you had the chance to erase the past
Will it be when we met here under this big tree?
From the hurt and the pisses that I've given you (given
you)
I never meant to be, anything I could be
I tried, but it never seems to change up
And now I'm giving up, giving up, giving up slowly

And if I had some time
It would be the time when I'd say something
Apologizing to everything that I have failed
Then I can start giving up, giving up, giving up slowly
