Something hurts the world a lot
I don't know how to stop it
Something makes me throw what I got
I don't know what it is

Everyone's losing points of being alive
And I can't stop anyone
We look down and the night arrives
We look down until we're done

They won't listen to me
(I can't win the majority)
They won't listen to me
(I can't win the majority)
They won't listen to me
They won't even let me say
(I can't win the majority)

Something hurts the world a lot
It darkens up our soul
Something makes me throw what I got
It darkens up and makes a hole

Everyone wants to stay alone
They hate eachother inside their minds
We look down and the night arrives
We look around and all the enemies
And I can't stop anyone

They won't listen to me
(I can't win the majority)
They won't listen to me
(I can't win the majority)
They won't listen to me
They won't even let me say
(I can't win the majority)

Even for a moment, I want to see the situation
When everyone knows, then there's no more
complication
What's going on, and what's making this wrong?
We can't carry this weight and move along

And I can't stop anyone
You're the only one that listens to me

We live everyday, and we're now used to it
We're finding a place where we really fit
It's right here, it doesn't matter
Why fear, there's nothing that really shatters
Back again, and there's so much I can't change
But I won't believe that I am wrong
(X2)

They won't listen to me
(I can't win the majority)
They won't listen to me
(I can't win the majority)
They won't listen to me
They won't even let me say
(I can't win the majority)

Something hurts the world a lot
I don't know how to stop it
Something makes me throw what I got
I don't know what it is
I don't know what it is

They won't listen to me
(I can't win the majority)
They won't listen to me
(I can't win the majority)
They won't listen to me
They won't even let me say
(I can't win the majority)
They won't listen to me
(I can't win the majority)
But I'll still try saying it
(I can't win the majority)
Until someone else listens to me
(I can't win the majority)
They won't listen to me
They won't even let me say
(I can't win the majority)
I'm still part of this minority)
