No one knows
Knows
Knows
You still go
Go
Go
Every blink you make
Stops me about to think

I can never stand
I'm gonna' fall
Fall
Fall and hurt
Hurt
If that's what I deserve
About to drop
You make me stop

So what're you waiting for
Give me all you have
Give me
Give me all I need
You still go
Go, go at light speed
And I can't take no more
No more
No more
I'm not like before
Before

You're running everyday
Rejecting every words they say
And every time my heart beats
Every time my mind repeats
Like (Stop, stop, fall, stop, stop, fall)
And every breathe I take
Every mistake I dare to make
You're running everyday
There goes my hero, don't know where I need to go
(Stop, stop, fall, stop, stop, fall)

All the no's
No's
No's
All I can take
Take
Take
Every time I catch my breath
Every time I leave a mess

So what're you waiting for
Give me all you have
Give me
Give me all I need
You still go
Go, go at light speed
Things I don't need to know
But still things I want to know
And I can't take no more
No more
No more
I'm not like before
Before

I still can't give a reason
Why I'm still breathing
All the time I leave the rest
I still can't resist being a pest
No more
No more
In the end it comes upon
And the game isn't fun

I feel like I need to rely (No more)
I feel like I need to lie (No more)
I feel like I can't stand on my own

You're running everyday
Rejecting every words they say
And every time my heart beats
Every time my mind repeats
Like (Stop, stop, fall, stop, stop, fall)
And every breathe I take
Every mistake I dare to make
You're running everyday
There goes my hero, don't know where I need to go
(Stop, stop, fall, stop, stop, fall)

I feel like I need to rely (No more)
I feel like I need to lie (No more)
I feel like I can't stand on my own
(Stop, stop, fall, stop, stop, fall)

Stop, stop, fall, stop, stop, fall
I don't worth a thing at all
Stop, stop, fall, stop, stop, fall
I know I need you
Stop, stop, fall, stop, stop, fall
My hero
I start from zero
My hero
Don't know where your mind goes
But I don't need to know

Yeah, you're running everyday
Rejecting every words they say
And every time my heart beats
Every time my mind repeats
Like (Stop, stop, fall, stop, stop, fall)
And every breathe I take
Every mistake I dare to make
You're running everyday
There goes my hero, don't know where I need to go
(Stop, stop, fall, stop, stop, fall)

Stop, stop, fall, stop, stop, fall
Everyday's a game to find something to rely on
Stop, stop, fall, stop, stop, fall
Everyday's the same just wanting to come upon
Stop, stop, fall, stop, stop, fall....
