It was a dream inside my head
In real life I woke up from bed
It was a dream inside my head
In real life I woke up from bed

Now I miss my life
From this world with knives
Taking myself to another risk
We still won't make up after the kiss

It was a dream inside my head
Just a place inside my head
A place called hell that I know so well

I've met so much after the storm
I've seen you had warm hands with cold hearts
Now I need to meet someone like you
Someone like you that I saw before
I took enough, what else more?

It was a dream inside my head
I can wake up, but I won't instead
It was a dream inside my head
In real life I cannot wake up from bed

I've met so much after the storm
I've seen you had warm hands with cold hearts
Now I need to leave someone like you
Leave me away now (Away now)
They won't allow us
Leave me away now (Away now)
They won't allow us
They won't allow us

[Solo/Break]

Well I've seen so much after the storm
I've seen you had warm hands with cold hearts
Now I need to meet someone like you
It must just be a dream, inside my head
It's not a dream
(X2)
