Come on now, and strike my heart  
If that's how you want things to start  
Come on now, they'll be no surprise  
Nothing to say, then just look me in the eyes  
Cause' I'm tired and bored  
The prices to pay that I can't afford

When it ends, my one day wonder  
You come so swift, and steal my thunder  
I'm so sick, dancing to your tune  
Can't you think, I'm not asking for the moon  
It still repeats, I'm beating my head against the wall  
And I already know, nothing will change afterall  
Soon I'm gonna break, anyway!

I'm always angry, always lying, I'm just like you  
Nothing left, nothing fixed, and dreams will never  
come true  
Whatever, it's done, you're just twisting the knife  
We can't come in one, and that's the story of my life  
Soon I'm gonna break!

Nothing changed, the same names to call  
Pull me under, it'll all soon fall  
Nothing changed, nothing's new  
Now I'm wanting a bolt from the blue  
And I'm tired and bored  
To the prices to pay that I can't afford  
(I can't afford! )

When it ends, I'll have a smile on my face  
Just to think of it, everything back in it's right place  
But I'm still sick, dancing to your tune  
Can't you see, I'm not asking for the moon  
It still repeats, I'm beating my head against the wall  
And I already know, nothing will change afterall,  
afterall  
I'm gonna' break!  
Soon I'm gonna break!  
It's gonna break before the end of the story to come

[Piano/Guitar Solo]

It's the end of the story  
It's the end of the story  
(To meet a new history)  
Now I'm coming to an end of the story  
(To meet another history)  
It's the end of the story  
It's the end of the story  
Now I'm coming to an end of the story  
It's the, it's the end of the story

Whatever, it's done, you're just twisting the knife  
We can't come in one, and that's the story of my life  
From the price to pay that I cannot afford  
Soon I'm gonna break!  
I know it's done, but what else can I do than break?

The story of my life can end anytime now  
(The price to pay that I cannot afford)  
And soon I'm gonna break!  
(X3)
