can you take  
can you take  
a heart full of trainers  
can you see  
can you see  
a treat full of drainers  
i'm a plumber and a band member too  
I think  
I know  
i can reach 500 skyscrapers and also a crew  
there might not be so much  
and i know it's so true  
where getting in to it  
come on  
lets go  
it's the sixth fret  
not the first fret  
not the second  
or the third one  
also not the fourth  
i know it  
it shouldn't  
be the fifth  
i also know  
is the sixth  
it's the sixth fret  
yeah
