Got a ticket for a ride
Never stop until I'm satisfied
It's a party on the sun
Feel the heat coming from my gun

Flying high on rock and roll
Like a fever burning in my soul

Livin' the life I was born to live
Giving it all I've got to give
Loving every minute of what I do
Come on, come on, come on, you can live it too

I like it hard, I like it fast
Nobody told me it was meant to last
I get my loving when I can
Spread the word all over this land

I wanna rock it all night and day
Don't you tell me there's another way

Livin' the life I was born to live
Giving it all I've got to give
You're invited if you wanna come
Better get ready to have some fun

Look out

Livin' the life I was born to live
Giving it all I've got to give
Livin' the life I was born to live
Giving it all I've got to give
You're invited if you wanna come
Better get ready to have some fun

I wanna live my life
