Baby in my solitude I think of you, it's true
(I can't stop thinking about you)
I know that I don't know you well
But the time we spend yes I can tell
I need you in my life
See your voice is like an angel
Sitting from the heaven above
Baby I think that you may be the one

[Chorus]

Baby girl I wanna be ya lover
Don't you understand I don't want no other
You make me want to take a chance on love
Baby girl I wanna be your lover
Don't you understand I don't want no other
Make it known that I want you love

Darling, seems I cannot get enough off you
Thoughts of love consume me
I've always walked away from love
But this time I'm not afraid of love
Willing to put it on the line
The face of an angel
Yes, you are my vision of love
Baby I think that you may be the one

[Chorus]

Cause it is with you that I wanna know love
I'm what you waiting for
Cause I'll be yours forever more

[Chorus]
