Verse 1

I cannot
Be fooled tonight
I took the step
I felt the light

And what was dead
Is now alive
Our own demise
We will survive

Like children crash
Into the sea
Receive their crowns
On bended knee

And come back out
With renewed minds
Claiming what we lost
Soon we will find

Chorus

Hey what are you looking for
Well find it together
Were standing at the door
Of something better
(Repeat)

Verse 2

We have all
Been in demand
But gave it back
With broken hands

And fell behind
Just like before
The casualties
Supplied the floor

So I went up
And came back down
And looked at all

My friends around
My dearest friends
If were denied
Ill show you where
Tomorrow hides

Chorus
Hey what are you looking for
Well find it together
Were standing at the door
Of something better
(Repeat)

Counter Melody
I have this sign
Walk right by
I can hear you

Im holding now
Wont allow
Its so near you
