

Rocket Me Nowhere "Tuesday"

Visit "[Tuesday](#)" on MotoLyrics.com

My day is ruined
I dwell on the things that got me down
Tuesdays remembered
Cause it only made me hit the ground

You are there when I think
The clouds are the only ones watching
You help me when I think
The rain is my only healing

Your heart pours warmly
Like coffee that fills me up inside
Your kindness remembered
And a compassion that coincides

You are there when I think
The clouds are the only ones watching
You help me when I think
The rain is my only healing

What keeps you going for so long?
I need this feeling. I cant move on.
What keeps you going for so long?
I need this feeling. Please keep me strong.
What keeps you going for so long?
I need this feeling. I cant move on.
What keeps you going for so long?
I need this feeling. Please keep me strong.

You are there when I think
The clouds are the only ones watching
You help me when I think
The rain is my only healing
You are there when I think
The clouds are the only ones watching
You help me when I think
The rain is my only healing
