Don't try to hide  
The mistakes i made this time  
But please try and listen  
Cause i'm breaking my heart tonight  
So you can see what's inside  
Cause wherever you go, well that's where i'll go  
I'd do so much I'll show but you won't know  
So heres a song to show for the things i've blown  
But im sorry so... that's the only way that i know

And all ive learned is  
What we hate we make, what we hate we make  
There's no time for hating but what we hate we make

Something is about to change  
Cause i can feel it in my heart today  
And you know it's not the first time  
But i bet it won't be the same  
Cus you know im at an all time low  
So heres a song just so you won't go  
Cause that's the only thing that i know

And i will start with a verse  
Then a bridge, write a chorus  
So we can all sing along  
With everything we got  
But between you and me this song would be  
Written for us but i know that's not enough  
To say im sorry

What we hate we make, what we hate we make  
There's no time for hating but what we hate we make

And you will know what you will be  
Yeah, you will know what you mean to me  
Yeah you will know that truthfully  
I am sorry.
