And back and forth
I have come to this, so listen
If you are interested in it
I hope you're not too busy to miss
And this epiphany I just had

And I know it's not too sexy
That I'm singing about the blessings we get
When we give up ourselves for something good
It would be bigger than a promotion, motion-motion-
motion

Because nothing matters
Just tell yourself
Again and again and again
Nothing matters
But what we offer in love

And just today my boss came in
And said no way, no way
We don't have money money money
I got so mad, walked out the studio
And there was a man quiet and hungry
Down and out
True story, yeah uh-huh

And I know it's not too sexy
That I'm singing about the blessing we get
When we give up ourselves for something good
It would be bigger than a promotion
So start the motion

That nothing matters
Just tell yourself, again and again and again
Nothing matters
All of our wealth, again and again and again

Nothing matters
Pride will shatter
Our words will never be enough
'Cause nothing matters
So I'll surrender to you love

And oh how the war wages on
The battle of my heart
The face, the face of truth is what I want
And all that I've discovered is

Nothing matters
Just tell yourself
Again and again and again
That nothing matters
All of our wealth, again and again and again

Nothing matters
Pride will shatter
Our words will never be enough
'Cause nothing matters
But love

The things I chase
That status I crave
It's nothing, it's nothing
We invest with the bankers, but not in the maker
Think about it, think about it

And I am the culprit,
I am no saint
How long will I stand here
Obstructing love's way?
