"Something True"

Visit "[Something True](#)" on MotoLyrics.com

I've always wanted to think
That life has more to it than this
That wishes do come true
Yes they do exist
Just depending on how you look at it If I believe in
everything
Am I a fool?
I've got my heart depending on something true
Sometimes innocence and play
Soon get up and they walk away
When the struggle of
Growing up becomes
More to us than we can take
(Chorus)
As I look back on all the things I have wished
I realize that I have gotten all of it
(Chorus)
