Route six six six - end of the line  
Come a little closer - soon it starts  
Far away calling you from above  
"Let the horses run!"

Stop! Stop running there is nowhere to hide  
Catch you now I'm not far behind  
Hang it up, push it down  
Forget the voices in your head  
"Let the horses run!"

If it all were going right  
Then you would be so far  
Lonely riders would show you how  
To let the horses run

Have you seen them in your eyes?  
Let me introduce you to some friends of mine  
If you were wrong they soon will come  
Forget the voices in your head  
"Let the horses run!"

If it all were going right  
Then you would be so far  
Lonely riders would show you how  
To let the horses run
