

Rockfour "Superman"

Visit "[Superman](#)" on MotoLyrics.com

"Soon" they said "the end is beginning"
Green fields are turning to red
No mistake, the devil's arriving
Astroids are falling like blades

Who's on the bridge?
Set the time
Have you returned once again?
God, we're lost living in a loop
Some things are faster than us

We love stars just like superman
And we're hiding the tears when he flies
Are we sparks, the already made?
And we're craving for roses and wine
Diamond eyes, pushing hard, overdrive

Scary games
Most of us dreaming of being the perfect machines

Who's on the bridge?
Set the time
Have you returned once again?
Is it the end or a start?
Oh, please don't press 'erase'
Join us and play a new game

We love stars just like superman
And we're hiding the tears when he flies
Are we sparks, the already made?
And we're craving for roses and wine
Diamond eyes, pushing hard, overdrive
