Just a cold millennium in another dry age
Just a cold millennium in another dry age
The vanishing man has madness to sow
There are secrets he knows that have never been told
I was sleeping with the insects yeah.....
I was dreamin of the ocean
The devil is just out of frame
The devil is just out of frame

It's suck a cold dimension
This slow burn in my head
(soul, blood)
Phantom green is the color of the sky
Its the color i see when i close my eyes
Phantom green is the color of the sky
Its the color i see when i close my eyes
The devil is just out of frame
The devil is just out of frame
