She knows what night I hang out with the guys,
Donâ€™t touch the radio when I drive.
Wears my shirt when she goes to bed,
Knows my favorite bands and puts up with my friends.

The girl just knows.
The girl just knows.
The girl just knows.
The girl just knows.

She found a way to make me dress right.
When I fucked up, she knows I tried.
Lets me sleep in when Iâ€™m tired.
Tells my boss Iâ€™m sick so I donâ€™t get fired.

The girl just knows.
The girl just knows.
The girl just knows.
The girl just knows.

Sheâ€™s got a way of finding me out, finding me out.
She is the one, the one, I know, I know, I know.

The girl just knows.
The girl just knows.
The girl just knows.
The girl just knows.

I know she knows...
