"Believe"

Accept this truth get it inside of you
this love into your heart
You know it's true, what you can do
What you can do

CHORUS

This is real, all you have to do is believe
Let this love into your heart
All you have to do is believe

Listen with your soul not your Emotions
Give Him control, let His love in
It's hard to imagine how good it can be
So make up your mind to believe

CHORUS

CHORUS

Let the truth embrace your heart
Make His love your testimony
Give Him all the hurt you feel inside
And die to live again

You have to die to live again
All you do is believe

CHORUS
