I can see you girl
Watching through your television
Smiling with your friends thinking I don't notice
But I got your full attention
So let me tell you girl
After the make-up and lights come down
I just wanna run away
And do whatever we want

I wanna take you to a spot
Where we can chill outside
Or we can see a movie
I know that's what you like
If that's what you're into
Then that's what I'm into
'Cause I know you like me girl
And you know that I do to

I wanna run down the street
Get to the end where we meet
I wanna watch you smile
That makes my life worth while
Feel so complete when with you
You always know what to do
I just wanna say today
Baby I love you

I can feel you girl
You got your arms wrapped up around me
Telling all your friends I'm the one you dig
And how I make you oh so happy
Well let me tell you girl
I'll try to never ever let you down
You can always trust me
'Cause I'll never break your heart

I wanna take you to a spot
Where we can chill outside
Or we can see a movie
I know that's what you like
If that's what you're into
Then that's what I'm into

'Cause I know you like me girl
And you know that I do to

I wanna run down the street
Get to the end where we meet
I wanna watch you smile
That makes my life worth while
Feel so complete when with you
You always know what to do
I just wanna say today
Baby I love you

So many people trying to pull at me
Pulling at the same time
I try to tell about you girl but
They don't understand our love no
I know that you're not really here but
You're only in my dreams
I hope that you one day
Will step out and come my way

I wanna run down the street
Get to the end where we meet
I wanna watch you smile
That makes my life worth while
Feel so complete when with you
You always know what to do
I just wanna say today
Baby I love you

I wanna run down the street
Get to the end where we meet
I wanna watch you smile
That makes my life worth while
Feel so complete when with you
You always know what to do
I just wanna say today
Baby I love you
