### Verse 1:

It's too late to turn around  
You think you're safe but you won't hear a sound  
Until you're run aground  
Nothing left for you to fear  
The words of warning that you couldn't hear  
As the siren draws you near

### Chorus:

All we share will still remain  
Don't cry  
(Don't say goodbye)  
A promise always stays the same  
So don't say goodbye  
(Don't say goodbye)  
Don't you cry, don't you cry, cry

### Verse 2:

Every breath could be the last  
A soul survivor calling from the past  
Their hopes are fading fast  
Nothing left, but empty space  
A field of memories you can't erase  
Another time and place

### Chorus:

All we share will still remain  
Don't cry  
(Don't say goodbye)  
A promise always stays the same  
So don't say goodbye  
(Don't say goodbye)  
Don't you cry, don't you cry, cry  
Don't you cry, don't you cry, cry
