### Verse 1:

Where do you go when all is falling down  
Around you?  
How do you cope with all those lies?  
The sound of thunder rolling in, do you  
Ever wonder?  
If you'll ever find your way, to clear blue  
Open skies

### Chorus:

Free you mind and spread your wings,  
Set your sights on higher things,  
Just keep your faith, you'll soon be flying,  
You feel you're trapped inside a cage,  
Change the chapter, turn the page,  
And soon you'll see, you'll soon be flying

### Verse 2:

I know it hurts but soon you'll find a  
New direction,  
Lessons in life we all go through  
Move on, look straight ahead, so many things you'll  
wish you  
Said,  
It's all you can do, progress to something new.

### Middle 8:

Rise above it all, below,  
You could be taking flight  
Through the clouds and on you go,  
Meeting the dawning light
