Persephone

I will keep this brooding brief
But its fate and not just my belief
That keeps you coming back to me

Persephone

I will smolder in this grief
Time if very fine a thief
But it cannot steal from destiny

I will stand and I will fight with all my might here on the
line

Between the darkness and the light
Until at last I have thee in my custody

Persephone

Persephone

Return the symphony to this drone
The rainbow to the monochrome
Love to the damned
What we might be to what I am

I will stand and I will fight with all my might here on the
line

Between the darkness and the light
Until at last I have thee in my custody

Persephone

And should the mortals dare design
To keep you ever theirs and never mine
Should they in the name of liberty enslave you to their
needs

Your ransom has been paid with seven pomegranate
seeds
