When will you walk through my door, when will the  
clouds disappear  
When will the story unfold, when will there be no more  
tears  
'Cause it's okay, you say "Don't you want to get, don't  
you want to get high"  
Sing Lord knows, let go...don't you want to get, don't  
you want to get high  
Smile though the world feels so cold, sing though  
there's no one to hear  
Dream so the story unfolds, laugh so there'll be no  
more fear  
'Cause it's okay, you say "Don't you want to get, don't  
you want to get high"  
Sing Lord knows, let go...don't you want to get, don't  
you want to get high  
Lord there's a way, you know we'll say today...don't you  
want to get, don't you want to get high"  
Sing Lord there's a way, your love will save the day  
Don't you want to get, don't you want to get high
