Who believes in magic, who's afraid of the wolf
Who believes it's tragic living life by the book
I see daylight coming, in the eastern sky
Oh my love awaken, oh my love don't die
Who's afraid of madness, who's afraid of the moon
Who's afraid of sadness, afraid of being alone
I can feel it coming in the eastern sky
Oh my love don't hurt me, oh my love don't die
Chorus:
Summer comes like a lady with her charms, cool and
shady
Wrap around, never let me go, let me know
Who's afraid of winter, who's afraid of the dark
Who's afraid of aging, afraid of losing their spark
I can feel it coming, in the northern sky
Oh love don't desert me, oh my love don't die
Repeat Chorus
Summer comes like a lady, with her charms, cool and
shady
Wrap around, oh my love come lie, don't be shy
