I am caught in a trap, there is no turning back, I'm  
finally facin' the fear  
The sky is on fire, and up with the flames, my hope and  
my dreams disappear  
So bring me the power, I'll be the king of the land and  
the seas  
Show me the way to go, let me fight with my body and  
soul

Let me be the native son with freedom in my heart  
Life will never be the same when spirits are calling my  
name  
My name...

Let me out of the darkness, the shadow of pain, and  
I'm keepin' my promise to you  
My people, my spirit, the home of my heart - you're with  
me wherever I go  
So bring me the power, I'll be the king of the land and  
the seas  
I've got a way to go, let me fight with my body and soul

Let me be the native son with freedom in my heart  
Life will never be the same when spirits are calling my  
name  
My name...

So bring me the power, I'll be the king of the land and  
the seas  
I've got a way to go, let me fight with my body and soul

Let me be the native son with freedom in my home  
Life will never be the same when spirits are calling my  
name

Spirits are calling my name
