Wont you come with me to Chocolate city

In the city of La  
There's a place where the player plays. Chocolate city  
Where Mac player... that's where the honey goes.  
Chocolate city  
You can see who you wanna see  
And you can be with who you wanna bee. At Cocolate  
city

Wont you come with me to chocolate city  
You can find at chocolate city

As the player plays his game  
Macin honeys all the same  
All the fellas try to play it cool  
But the player makes the rules. At Chocolate city  
He got all the honeys waitin in line  
For him to make up his mind

You can come and dance at Chocolate city  
You can find romance at Chocolate city

Here we go here we go again  
Now you try to tell me that a "girl is just a friend"  
But I'm no hoe  
But I know again  
Boy you lied this time  
Will never get you into my heart  
Or my mind  
Gonna take my take  
True love I'm gonna find

Wont you come with me to Chocolate city

Yes it's on baby yes it's on mama  
Yes it's on baby yes it's on mama  
Yes it's on baby yes it's on mama
