"Freedom We Fight"

Visit "[Freedom We Fight](#)" on MotoLyrics.com

Do you find that this will slow you down?
Do you now understand what should be done?
'Cause we've had a noise,
No difference will be made
'Cause at the price we pay for the lives we trade.

Too much blood for resistance.
We stand up only to get knocked down again.
Try as we might we just can't lose.
Freedom we fight in mind we choose.

It's not the government, I know
They just don't care.
But we know who will still be there
Waving a flag: It is you; it is me.

Too much blood for resistance.
We stand up only to get knocked down again.
Try as we might we just can't lose.
Freedom we fight in mind we choose.

We are a shield.
We are a noise.
We understand
We're going faster,
The government is a natural disaster

Too much blood for resistance.
We stand up only to get knocked down again.
Try as we might we just can't lose.
Freedom we fight, freedom we fight,
Freedom we fight in mind we choose
