This race is already run
Get off your horse, get on this train
"Welcome to the real world"
I said, "Welcome to the real world"
Are we rushing like the wind?
Naked out and naked in
"Welcome to the free world"
I said, "Welcome to the me world"
Are we rushing like the wind?

Put your lovin' arms around

Did you lose your faith in God, no?
Does your conscience always get you down?
Fall to pieces, rough and tumble
Does your conscience always get you down?

These days it's all in the mind
It's elemental
Don't say your up when your down
It's elemental

Put your lovin' arms around
This your new year's resolution
Put your lovin' arms around
Nothing doing revolution
Put your lovin' arms around

Take another leap in the dark
With a humble heart
Do yourself some good
What did you become?
Patience, be sure
Baby, Baby

These days it's all in the mind
It's elemental
Don't say your up when your down
It's elemental
