God played dice and called you home
Just to let you know you're not alone
Hey Andy!
Darkness creeps against your skin
Like the tide rolling in
Hey Andy!

Incomplete if we ever stop
We're gonna climb the walls and reach the top
More alive than we've ever been
Don't get your fingers caught in my machine
Take your time and take your chance
Don't be fooled by circumstance
Wrap things up in dreams of glory
'Cos when I die you'll be waiting for me

All your lives add up to nine
When you made your bed I made mine
Hey Andy!
Seventeen ways to cleanse your soul
We'll let time take it's toll
Hey Andy!

Incomplete if we ever stop
We're gonna climb the walls and reach the top
More alive than we've ever been
Don't get your fingers caught in my machine
Take your time and take your chance
Don't be fooled by circumstance
Wrap things up in dreams of glory
'Cos when I die you'll be waiting for me
